Languages: English & French (both fluent)
Citizenship: Canada / United Kingdom

My experience as main camera operator over the last forty years has been on television series, TV movies, features and commercials in both film and electronic formats. I have also worked on various live to tape multi-camera projects. After 30 years, I no longer do Steadicam, however I continue to work with most other production tools currently in use today: including hand held, pedestal cameras, remote heads, easy-rig, no matter what format.

Currently I'm a full member of the Society of Camera Operators, The Steadicam Operators Association & IATSE 667, and an Associate member of the Canadian Society of Cinematographers.
